

VIKAS Y AMIN

Assistant Engineer | Precision Machining Specialist

Email: vikasamin99@gmail.com | **Phone:** +91 8792152365 | **Location:** Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Dedicated Mechanical Engineer with 5+ years of hands-on experience in precision machining and grinding. Proven expertise in CNC operations, tool resharpener, and quality assurance. Currently specializing in CNC precision grinding and resharpener of shaving, broach, and HOB cutters at Musashi Auto Parts India Pvt Ltd. Proficient with advanced measurement tools including micrometers, calipers, and precision gauges, ensuring the highest standards of accuracy in manufacturing processes.

CORE COMPETENCIES

• CNC Precision Grinding • Tool Resharpener (Shaving, Broach & HOB Cutters) • Surface Grinding • Precision Measurement (Micrometers, Calipers, Gauges) • Quality Assurance & Control • CNC Programming & Operations • Manufacturing Process Optimization • Equipment Maintenance • Team Collaboration & Training

PROFESSIONAL EXPERIENCE

Musashi Auto Parts India Pvt Ltd, Bengaluru

Assistant Engineer

October 2023 – Present

- Execute CNC precision grinding operations with exceptional accuracy, maintaining strict tolerances for automotive components
- Specialize in resharpener shaving, broach, and HOB cutters, extending tool life and reducing manufacturing costs
- Operate advanced measurement tools including micrometers, calipers, and precision gauges to ensure quality standards
- Maintain and optimize CNC grinding equipment to maximize productivity and minimize downtime
- Collaborate with engineering teams on tool improvement initiatives and process optimization projects
- Implement quality control procedures to ensure compliance with industry standards and customer specifications

Bhavani Industries

CNC Operator

2019 – 2023

- Performed surface and CNC grinding operations on precision components with high accuracy
- Demonstrated efficient task management and workflow optimization, improving production efficiency
- Utilized precision measurement tools for quality control and dimensional verification
- Maintained CNC equipment and ensured operational efficiency through preventive maintenance
- Trained junior operators on best practices and standard operating procedures

- Managed multiple projects simultaneously while maintaining quality and meeting deadlines

UCAL Fuel Systems

In-Plant Trainee

2018 – 2019

- Gained comprehensive hands-on training in precision manufacturing and automotive component production
- Learned fundamental machining and grinding techniques under expert supervision
- Developed understanding of automotive fuel system component manufacturing processes
- Applied theoretical knowledge to practical manufacturing scenarios, bridging academic and industrial practices

EDUCATION

Diploma in Tool & Die Making (First Class)

Govt Tool Room & Training Centre, Mangalore | 2018

Secondary School Leaving Certificate (SSLC)

Vidyadayini English Medium High School, Mangalore | 2015

TECHNICAL SKILLS

CNC Operations: Precision Grinding, Surface Grinding, CNC Programming

Tool Management: Resharpening (Shaving Cutters, Broach Cutters, HOB Cutters), Tool Life Optimization

Measurement Tools: Micrometers, Vernier Calipers, Dial Gauges, Precision Gauges, Height Gauges

Quality Control: Dimensional Inspection, Tolerance Verification, Process Documentation

Software: CNC Control Systems, Basic CAD/CAM Knowledge

KEY PROJECT

Tool Resharpening Automation

Developed and implemented an optimized workflow for tool resharpening using advanced CNC programming techniques. This initiative significantly reduced processing time by 20% while maintaining precision standards, resulting in improved productivity and cost efficiency for shaving, broach, and HOB cutter operations. The project demonstrated strong analytical skills and ability to drive process improvements.
